How to read codes on Porsche 968 without a 9268 tool

It is possible to read fault codes on the Porsche 968 with the use of a diagnostic tool.

1. With the engine off turn the ignition switch to the "ON" Position.
2. Press the accelerator pedal all the way to the floor for 3-5 seconds.
3. Wait for the "Check Engine" light to flash, then release the accelerator pedal.

The cars computer will begin to flash the "Check Engine" light.

Count the number of flashes between and notice the pause between flashes.

In this case code 24 is the "Oxygen Sensor"

How to clear codes

1. With the engine off turn the ignition switch to the "ON" Position.
2. Press the accelerator pedal all the way to the floor for 11 seconds.
